

## Electronic Design & Production A Division of Electronic Design, Inc.

**YOUR VISION + EDP ELECTRONICS = YOUR COMPETITIVE ADVANTAGE**

Concept, Design and  
Development of  
Industrial Electronics  
and Automated  
Systems

Circuit Specification  
and Layout

Prototype Analysis

Complete Assembly  
and Testing

Error-proofing and  
Order Fulfillment  
Technology

Manual System  
Automation

**KOHLER**

**Pierce**

**PRAXAIR**  
AIRGAS TECHNOLOGIES

**TORKE**  
Specialty Coffee

**Manitowoc**  
Manitowoc Cranes, Inc.

### PHILOSOPHY

For a quarter of a century, Electronic Design & Production (EDP) has operated as a custom electronics manufacturer, providing solutions for unique electronics and automation needs. EDP's innovative systems incorporate the latest electronic technology, supported with quality, cost-effective manufacturing and highly responsive product support. A multi-faceted company, EDP is backed with the resources to support a broad range of electronic and automation solutions. From initial concept and design to prototype and finished product, EDP satisfies the level of sophistication demanded in today's competitive global market. **EDP provides quality, cost-effective electronics customized to suit your application.**

### OUR MISSION

"EDP is dedicated to providing innovative solutions to our customers problems through interactive designs, quality manufacturing, continuous product development, and unsurpassed customer support."

## ENGINEERING

Extensive knowledge and experience, a commitment to R&D, creative in-house design, along with stringent quality and testing standards ensures constant innovation. These unique solutions are supported by complete in-house prototype tooling capabilities. **EDP serves your electronic and automation needs through creativity and innovation.**

## PEOPLE

EDP's management philosophy encourages teamwork, innovation, technological advancement and continued personal growth. As a result, EDP's well-educated workforce with over 100 years of electronics experience, takes pride in providing the ideal solution for every customer. **EDP's "Team of Experts" can help position your company ahead of the competition.**

## QUALITY

Quality is EDP's driving force. Whether we are designing a complicated automated system or redesigning electronics to provide customers more value, we strive to build quality into every facet of our products. **EDP works hard to not only maintain, but strengthen our tradition of quality.**

## CUSTOMER SERVICE

EDP builds a foundation of quality into our products to ensure reliable and smooth running operations, even in the harshest of environments. If a question arises, EDP provides the security of sound technical support.

**EDP stands behind EVERY one of its products.**

- ★ **Industrial Control Systems**- Design & Manufacturing
- ★ **Electronic Prototyping**- Design & Manufacturing
- ★ **Circuit Board Assembly**- (Medium-to Short-Run Specialists)
- ★ **Sensor Controlled Pick-To-Light** (AutoPICK®) for Order Fulfillment

- ★ **Error-Proofing Technology** (Auto PICK®) for Manufacturing
- ★ **Panel Wiring** & Assembly
- ★ **Automation** of Manual Systems
- ★ **Re-Design, Retrofitting & Repair** of existing Industrial Control Systems
- ★ **On-Site Technical Sub-Contracting**
- ★ **Electronic Repair**
- ★ **Final Product Assembly**

## THESE HIGH PROFILE COMPANIES DEPEND ON EDP

**Kohler Company** (Kohler, WI) Production Test Fixtures / Field Test Equipment / Circuit Design Consulting

**Pierce Manufacturing** (Appleton, WI) Automotive Computer Control Systems

**Kahlenberg Brothers Company** (Two Rivers, WI) Marine Horn Computer Control System

**Praxair-TAFA** (Concord, NH)—Thermal Spray Computer Control Systems

**Warren Industries** (Racine, WI) Error-Proofing Order Fulfillment System

**Siemens Building Technologies Company** (Chicago, IL) Error-Proofing Assembly Line Workstation

**Manitowoc Crane, Inc.** (Manitowoc, WI) Custom Displays/Computer Control Systems

**JSM Communications** (Sheboygan Falls, WI) Computer Controlled Communications Systems

**Torke Coffee Roasting Co.** (Sheboygan, WI) Automated Coffee Roaster System / Coffee Packaging Control System
